

November 2017

Recommendation - To whom it may concern

We have been using CQM's ATCS chiller maintenance system in our chiller cooling since July 2001.

Despite the fact that no chemicals or mechanical cleaning has been performed, the tubes of the chiller remain perfectly clean.

Upon this very satisfactory performance, On May 2012 we bought another ATCS system made by CQM that have been installed in other condenser to keep the pipes clean.

Systems work to our satisfaction

Sincerely yours

Eran Zohar

Chief Engineer
